## The Weather

As winter approaches, everything has taken a new look. There is now a covering of snow and ice. The beautiful sunsets that we have enjoyed are slowly fading as the daylight hours are getting shorter with each passing day. By the end of the month we will be experiencing 24 hours of darkness. Winter in many ways is a picture of what Greenland is really like. It offers an outward beauty but is cold, deceiving and dangerous. Many of the Greenlanders greet you with a smile, but beneath it all something completely different. Their lives are covered by religion and rituals. Their hearts are hardened and cold from sin. We desire a lasting change in the hearts and lives of the people here that will only come by genuine salvation. Please pray that God will use us to bring the light of the gospel to the people of Greenland.

## King's Club

We are actively involved in the

Kunngip Klubbia (King's club) ministry of Ilulissani Baptistit Oqaluffiat (Baptist Church of Ilulissat). It is a weekly Bible club for kids where the Bible is taught in Greenlandic, games are played, and lasting friendships are made. We have had as many as twenty-six kids come on a single night. It is exciting to see so many lives that can be impacted for the glory of God.

We covered the ministry here for several weeks as the Shull family was away. It was fun watching the faces of the kids as they came to church and saw we were the ones trying to "run" things. It was a definite challenge! We experienced firsthand the importance of communication and teamwork. We are grateful to be partnering with the Shull family! Please pray that we can see lasting fruit from this ministry.

Thank you for your faithful support in prayers and finances!

Laboring together in Greenland,

The Wrights
